PROFESSIONAL SUMMARY

Results-driven Software Developer with 7+ years of experience delivering high-performance applications using JavaScript (React, Vue, TypeScript, NodeJS) and Rails. Passionate about optimizing performance metrics and reducing development time by 30%. Proven ability to mentor teams, drive best practices, and collaborate cross-functionally to create scalable, user-centric digital solutions. Excited to leverage expertise in scalable web architectures and performance optimization to develop world-class digital experiences.

WORK HISTORY

Software Developer, 07/2024 to Present
JudgeMe, London, United Kingdom

Tech stacks: Javascript, NuxtJS, Vue3, ReactJS, Remix, Typescript, Hubspot, GraphQL, Google Tag Manager, Shopify

Responsibilities & Achievements:

- Led code review sessions, increasing code quality and fostering better team collaboration.
- Integrated new technologies, reducing development time by 30% and improving developer experience.
- Conducted root cause analysis and implemented corrective actions, improving application reliability.
- Optimized application performance metrics (LCP, CLS) by 15%, enhancing user experience and reducing production bugs by 95%, leading to improved system stability.
- Authored technical documentation and tutorials, streamlining onboarding and knowledge sharing.

Software Developer, 12/2021 to 06/2024
Metaloop, Graz - Graz, Austria

Tech stacks: Javascript, NuxtJS, Vue3, ReactJS, Typescript, NodeJS, MeteorJS, Hubspot, GraphQL, Google Tag Manager, Mixpanel, Gatsby

Responsibilities & Achievements:

- Rebuilt company website, improving page load speed by 40%, leading to a 20% increase in user retention.
- Designed and developed **Partner-UI**, a metal trading platform, optimizing user workflows.
- Created **Proform**, an advanced form-handling solution for internal and external use.
- Developed scalable solutions that improved system efficiency by 30%, reducing downtime and boosting client satisfaction.
- Conducted detailed software architecture reviews, leading to a 20% increase in system reliability.

SKILLS

• Frontend

- JavaScript
- ReactJS
- NextJS
- Vue3/NuxtJS
- Remix
- ReactNative
- HTML
- CSS/SCSS

• Backend

- NodeJS
- Rails
- Serverless
- MeteorJS
- AWS

• Others

- Playwright
- Cypress
- Typescript
- Shopify
- Hubspot
- SEO optimisation

EDUCATION

Bachelor of Engineering

Chemical Engineering, 12/2010.
Federal University of Technology
Minna, Niger State Nigeria.

CERTIFICATIONS

Advanced Javascript with ReactJS and NextJS
12/2024.

City University Of London,
London, United Kingdom.

Software Developer, Senior Consultant (Contract), 05/2021 to 11/2021
ModusCreate - Virginia, US

Tech stacks: Javascript, ReactJS, Nuxt, VueJS, Typescript, NodeJS, GraphQL, ThreeJS, Web Socket

Responsibilities & Achievements:

- Built a virtual reality experience for Audi, enhancing user engagement within the Audi VR platform.
- Mentored junior developers, reducing onboarding time by 50%.
- Improved app rendering and load times by 30% through advanced optimization techniques.
- Promoted coding best practices, resulting in more maintainable and scalable codebases.

Software Developer, 01/2019 to 04/2021
Longbridge Technologies - Lagos, Nigeria

Tech stacks: Javascript, NuxtJS, ReactJS, VueJS, Typescript, Web Socket, NodeJS

Responsibilities & Achievements:

- Spearheaded the development of critical banking applications, delivering high-quality solutions on schedule.
- Enhanced user interaction by designing custom UI components, improving usability and operational efficiency.
- Optimized frontend performance, reducing load times by 40%.
- Led team collaborations, ensuring the delivery of robust, scalable, and maintainable solutions.

Software Developer/Tutor, 02/2017 to 12/2018
Univelcity Nigeria - Lagos, Nigeria

Tech stacks: Vanilla Javascript, ReactJS, VueJS, Typescript, ThreeJS, NodeJS, Unity, C#

Responsibilities & Achievements:

- Led application development cycles, enhancing user engagement through intuitive designs.
 - Delivered project-based training programs with a 95% pass rate, boosting students' career prospects.
 - Mentored junior developers, resulting in a 30% reduction in post-launch bugs.
 - Bridged frontend and backend systems, streamlining data performance and reliability.
